coach Michelle Brown. The cumulative grade-point averages of the two teams were the same as well, a sterling 3.97.

The Bruins are no strangers to academic state championships. During the current 2011-12 academic year, BHS had earned titles in football, girls basketball, and now boys and girls tennis. Since the 2007-08 academic year, Bruins squads have grabbed nine academic state championships.

"It's exciting," says Tim Bart, the Bartlesville Public School District athletic director, of the Bruins' latest titles. "It shows that academics and athletics can co-exist. I think the honors that we have received in the last few years show the kind of dedication that we have for academics.

"It's a total group effort. It's a testament to the students and how serious they are about academics as well as the support of their parents, teachers and coaches. We're very proud of them."

Officials with the Oklahoma Secondary Schools Activities Association notified representatives within the BPSD athletic office of the Bruin tennis team's achievement. The Bruins' cumulative grade-point average bested all of the other 6A varsity squads throughout the state in both varsity boys and varsity girls tennis.
